

Global Social Leaders Catalyst Program

One week before the start of the regular academic high school year, teachers from the U.K. come to our school and provide several lectures and presentations to inspire and prepare students for the upcoming year. Topics include things like self-control, time management, study tips, etc. This program has always put me in the right mindset before the start of each high school year.

We are taking listen at a course of lecture on UK history
presented by Mr. Braham Ferreira
