

Volunteer in International Energy Competition for the Future 2018 and Future Power Electronics Workshop held in Tsinghua University

Two national events with a focus on electrical engineering, during this event I was in charge of registering all guests and providing guidance for the venue, I got to meet and interact with some of China's brightest students and other foreign students

I met Prof. Philip Krein, a very famous professor from USA

I was led by the co-chair of the workshop, Dr. Kai Sun

I was busy with the reception desk work
